Fitting instructions for Step Up Ezy Dairy Caddy (Large or Standard) hjmcbp200917

Step 1

Slider rails to fit to main body

Remove wheels (non cable end) and fit same wheels on Step up Ezy Legs (see pic right hand side)

Step 2

Set measurements
FOR LARGE DAIRY CADDY
Use guide block as shown
Mark holes on main leg body
(rails are pre drilled)

FOR STANDARD DAIRY CADDY
use the 10 mm wide side of the slider as measuerement spacer

Step 3

Fasten with self tappers provided

NOTE sliders are marked L eft or R ight for best fit.

Finished look rails attached

TECHNIPHARM
"we make farming ezy"

Step 4

Locate slider blocks

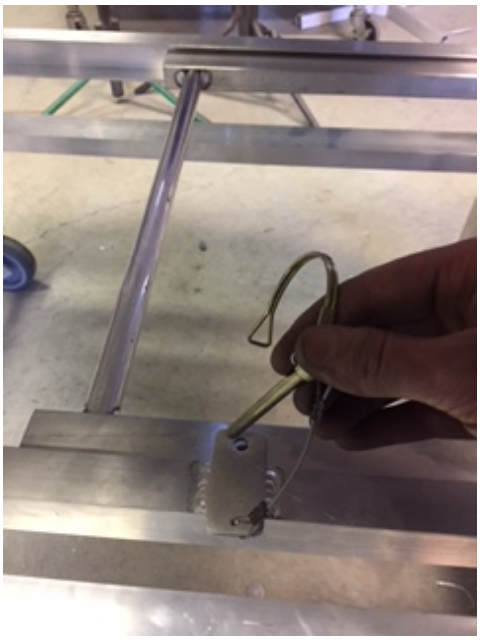
Step 5

Slide legs in slider rails

Step 6

Fix lock brackets

Step 7



When in use slide Ste up Ezy out and lock pin in hole
when finished you can slide the Step Up Ezy back to the "in storage" possition

Alternative to below shown picture maybe a slot in the side of the rail for the pin fit (self explanatory)

Unit finished ready for work
